

4 GLOBAL Recognitions that celebrate how SUPvivors change the world!

- The votes of 2,200 NGOs awarded us the prize: "Outstanding Achievement Award", for our contribution to the prevention of sexual abuse at a global level (The Commission on Human Rights, 2022).
- At Harvard University, we received the "Global Success Story" recognition by the No More Global Foundation, due to the impact of our work in the region (2019).
- Un Women chose our Program "Sácale Roja al Abuso Sexual" (launched in alliance with the Directorate for Women), for Latin America at the World Forum: "Victory over Violence" in May 2022 and our Director was the only speaker from the region among experts from 4 continents.

**We have been international speakers, to talk
about developing programs, tools and
prevention campaigns.**

!

Sexual violence is a priority problem!
In Latin America 40 million children under the age
of 15 suffer from violence.
Studies show that 7 girls are raped daily in Ecuador.
85% of cases of sexual abuse are NOT reported
and only 5% obtain a legal sentence.
The risk of being a victim of sexual abuse is 4 to 10 times
greater for a Girl, Boy or Adolescent with a disability.

ECUADOR DICE
NO MÁS
ABUSO SEXUAL INFANTE

unicef 

From our foundation, we have developed multiple free educational campaigns. This successful campaign (👇) was written and produced by us, in partnership with UNICEF; it became Ecuadorian government's National Plan. Since 2017, we managed to uncover thousands of hidden abuses in the educational system and put an end to the silence that existed towards sexual violence against children in Ecuador.

SUPvivors

When victims of sexual violence work together to terminate all forms of violence against Children, they become Super Survivors, or as we like to call them: **SUPvivors**.

WE fight the stigma of mental models that consider victims to be weak, shameful, silent and throughout a courageous and strategic leadership, we generate social changes with a SUPvivor's perspective.

About US

In 2016, Us founders made our stories of abuse public and launched the NO MORE SEXUAL ABUSE campaign in Ecuador, which reached 12.7 million people, gave voice and mobilized thousands of victims and generated so much social pressure that the authorities were forced to publicly acknowledge the scope of the problem, publish statistics and abolish the statute of limitations for sexual crimes against children.

Our founder is a UNICEF Consultant, spokesperson for UN WOMEN and violence prevention specialist for No More Global.

We are UN PARTNERS. We have developed National and International Cooperation Agreements and we are representatives of the No More Foundation for Latin America.

Milestones

The initiative has grown to become the largest and most successful sexual violence awareness initiative in history of Ecuador with a huge impact in the region:

22 MILLION

Downloads of our free educational videos from all over the world.

4.8 MILLION Children trained

in educative programs in alliance with UNICEF, The Municipal Women's Directorate, the Ministry of Education, among others.

12.7 MILLION Ecuadorians reached

with our campaign in the media and social networks.

500,000

Key adults from 12 countries

trained to create spaces free from sexual abuse and strategies of intervention for children and teenagers.

16.000

Public Schools

equipped with our free resources for prevention and detection of abuse.

6,000

Allies from 12 countries sharing tools for building safe environments for children.

590

Therapy Spaces Developed implemented for support victims and their families.

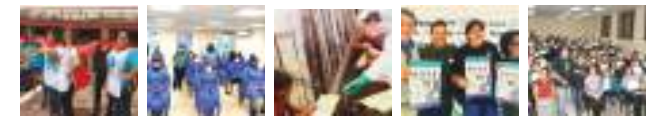

We FOCUS on providing practical tools for prevention

to train adults in how to prevent, detect, intervene and affectively address sexual abuse.

Because it is proven that with educational tools and training, most abuses can be stopped and avoided; therefore, we have developed an innovative audiovisual methodology and implemented educational programs pioneers, which primarily protects girls and boys with disabilities, to racial minorities, living in marginalized communities or migrates, as they face an increasing risk of being victims of sexual violence.

Since the Covid-19 crisis, we have developed free online educative seminars that reached more than 6,000 participants and 12 countries all around the world.

With this wave of violence children are most vulnerable than ever, please support our work!
